# INTRODUCTION

Public bathrooms are one of the most utilized areas on Cruise vessels. The extensive use of the facilities and high traffic makes public bathrooms prone to deterioration, shortening its lifecycle.

Companies are always looking to upgrade public bathrooms with long lasting materials to enhance the aesthetics and to extend the lifespan of their investment.

TTS has extensive experience in designing and installing various public bathroom typologies at every price point.

# KNOW HOW AND EXPERTISE

Materials and products used in this area are essential to ensure aesthetics, functionality and durability.

A well-designed space makes a difference: technical details such as electrical installation, steam machines, space configuration, piping, insulation and finishes are evaluated.

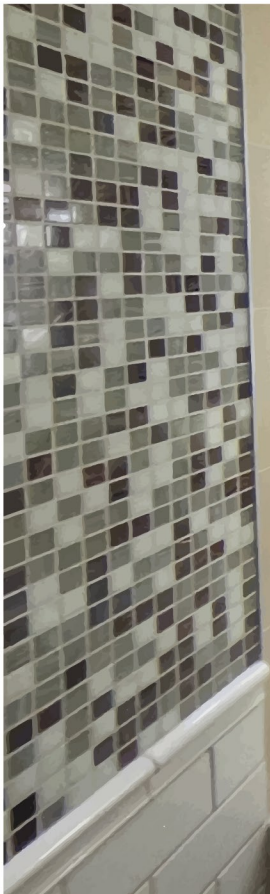

Tuttotondo Group is a market leader offering turnkey solutions with exceptional results.

## VALUE ADDED

Good cost/value ratio.

First class materials and extensive knowledge of the systems technical.

High quality, long lasting products complications.
